

ELEVATOR PITCH

"An autonomous legal advocacy engine that converts patient voice stories and live state laws into formal insurance appeal demands."

Synthesizing patient voice intake, live state insurance code scraping, and statutory interest penalty enforcement into binding 90-second legal appeals.

The 850 Million Claim Denial Wall

Systemic claim rejections rely on administrative friction and expensive legal costs to force patient dropout.

850M+

Annual Denials

Over 850 million medical claims are rejected annually across U.S. commercial and ACA marketplace health plans.

\$500 / hr

Legal Fee Barrier

Hiring a healthcare attorney costs \$500/hr, making legal representation financially impossible for regular families.

< 1%

Patient Appeal Rate

99% of policyholders give up on valid claims due to confusing 30-page administrative rejection notices.

Autonomous 3-Stage Legal Engine

Converting unstructured patient voice stories into binding legal demand letters.

1. Speechmatics Voice Engine

Transcribes unstructured patient voice history, provider notes, and prior authorization numbers in real-time with 98% accuracy.

Voice Intake Layer

2. Bright Data Law Scraper

Live-scrapes Cal. Ins. Code § 2695.7 in 142ms to detect 40-day response violations and trigger 10% statutory penalty interest (\$14,200 → \$15,620).

Statute Intelligence Layer

3. AI/ML API Legal Synth

Synthesizes formal Parchment Legal Demand Letters containing statutory violation matrices for 1-click Insurance Commissioner filing.

Legal Document Layer

3-Tier High-Margin Revenue Architecture

Monetization aligned directly with successful claim payout recovery.

10%–15%

Contingency Success Fee

\$0 upfront cost for patients. MARSHALL earns a 10%–15% success fee ONLY upon successful claim recovery (\$1,562 fee on \$15.6k recovery).

\$2,500/mo

Hospital Enterprise SaaS

SaaS subscription for hospital billing departments & surgical centers to automate their entire denial recovery workflow.

100%

Penalty Interest Capture

Under Cal. Ins. Code § 10111.2, delayed payouts incur 10% statutory interest (\$1,420). MARSHALL retains penalty interest as platform revenue.

"An autonomous legal advocacy engine that converts patient voice stories and live state laws into formal insurance appeal demands."
